(6) Geen waterskiër mag in die watergebied 'n waterski uitskop nie tensy dit gedoen word op 'n plek waar die uitgeskopte waterski nie 'n gevaar vir 'n ander waterskiër of 'n vaartuig skep nie.

Attention : Mr Tjaart Viljoen

January 20, 1997

Dear Mr Viljoen,

West Coast National Park :Vodacom Base Station

Your application for the construction of a base station in the West Coast National Park dated 27 June 1996, refers.

The National Parks Board has evaluated your temporary mast installation and has decided to grant permission to Vodacom to erect a semi-permanent base station in the West Coast National Park on a high point located on the farm Massenberg as per attached sketch plan, subject to the following conditions:

- a mast of the same dimensions as the trial unit and located at the same position may be erected.
- the kiosk or container with maximum dimensions 2,4m x 2,4m x 2.8m must be located in close consultation with the Park Warden so as to obtain the minimum visibility from the R27 route and tourist main road within the Park. If necessary additional measures such as painting and constructing the building edges/outline with broken/uneven lines should be taken to camouflage the structure.
- the microwave dish should be mounted on the mast or kiosk at the lowest elevation possible, but certainly not higher than 3 meters above the kiosk or mast floor/base.
- the National Parks Board will be permitted to mount a two way radio communication antenna and associated cabling on the same mast and Vodacom will provide a power connection to operate a two-way radio relay transmitter.

[Handwritten signatures]

- access to the site for construction purposes will only be allowed along an existing track from the National Parks Board facilities at Mooimaak (to be pointed out on site by the Park Warden).
- subsequent access for maintenance or inspection purposes will be allowed by vehicle along the same route with the vehicle(s) to be parked at a point opposite the mast site from where the visitor must proceed on foot. If heavy equipment has to be replaced the secondary track leading to the mast may be used for vehicular access but only in exceptional circumstances. The access route may be altered from time to time at the discretion of the Park Warden.
- the access restrictions and arrangements laid down by the Park Warden have to be strictly adhered to.
- precautions to limit the disturbance to the environment during construction and afterwards should be taken. The directions of the Park Warden in this regard should be strictly adhered to.
- a permit to provide free access to the site during construction and afterwards will be issued by the Park Warden provided that activities within the Park boundaries are strictly limited to the construction of your base station and subsequent maintenance and inspections. Only the routes demarcated by the Park Warden may be accessed. The Park Warden must be notified prior to the Park being entered during the period of this permission
- Vodacom takes full responsibility for the actions of its employees within the Park boundaries. Use of the site involved and access thereto will be at the sole risk of Vodacom.
- the electrical supply cable will be buried at a depth of 600mm along a route to be indicated by the Park Warden and trenching for this purpose will be done by manual labour to cause the minimum damage to the environment and will be rehabilitated to the satisfaction of the Park Warden.
- site and access rental of R 100,00 per month will be payable in advance on or before the 1st of every calendar month to commence on the 1st of the month after the site involved has been entered upon by Vodacom, which date will be the date of inception of this permission; the site rental will escalate by 10% per year. In addition, a deposit of R 10000,00 is payable before any construction commences and will only be refunded upon the Park Warden issuing a certificate after completion of construction to certify that Vodacom has complied with all the National Parks Board requirements regarding construction, cleaning of the site and rehabilitation.
- the permission remains valid for a period of 3 years from the date of inception of this permission, whereupon Vodacom must reapply if they wish the permission to be extended for a further period of 3 years.
- should Vodacom breach any of the conditions of the agreement and neglect to rectify such a breach within 4 weeks of a written notification posted to their "domicilium" address the Parks Board may withdraw this permission forthwith.

Upon withdrawal of this permission Vodacom will, within a period of 8 weeks remove their entire installation from the West Coast National Park and rehabilitate the site to the condition it was prior to construction to the satisfaction of the Park Warden: West Coast National Park. Failure to do so

will entitle the Parks Board to carry out such work without any further notice to Vodacom and to recover the costs from Vodacom.

Should you be in agreement with these conditions please complete the endorsement to this letter together with and in the presence of two competent witnesses and return the original letter to this office as soon as possible. All pages should also be initialled.
